

Science Year 7

GFS Assessment Level	Assessment Criteria
M2	<ul> <li>I can demonstrate accurate and appropriate knowledge and understanding and apply my knowledge to a range of different sources</li> <li>I can use appropriate mathematical skills to perform multi-step calculations</li> <li>I can analyse qualitative and quantitative data to draw conclusions supported by some evidence</li> <li>I can evaluate methodologies to suggest improvements to experimental methods, and comment on scientific conclusions</li> <li>I can select and draw an appropriate graph</li> <li>I can decide if data supports a particular theory</li> <li>I can recall a sequence of related events</li> </ul>
M1	<ul> <li>I can analyse qualitative and quantitative data to draw plausible conclusions supported by some evidence</li> <li>I can evaluate data in terms of accuracy, precision, repeatability and reproducibility demonstrate some relevant scientific knowledge and understanding using limited scientific terminology</li> <li>I can demonstrate some relevant scientific knowledge and understanding using limited scientific terminology</li> <li>I can perform basic calculations and rearrange equations</li> </ul>
S3	<ul> <li>I can draw conclusions from qualitative and quantitative data supported by some evidence</li> <li>I can evaluate data in terms of accuracy, precision, repeatability and reproducibility demonstrate some relevant scientific knowledge and understanding using limited scientific terminology</li> <li>I can perform basic calculations</li> <li>I can select the appropriate structure for my answer</li> <li>I can use ratios, fractions and percentages and rearrange equations given</li> </ul>
S2	<ul> <li>I can demonstrate some relevant scientific knowledge and understanding using limited scientific terminology</li> <li>I can perform basic calculations</li> <li>I can draw simple conclusions from qualitative or quantitative data</li> <li>I can make basic comments relating to experimental methods</li> <li>I can rearrange scientific equations</li> <li>I can use a scientific model to explain an answer</li> <li>I can recognise patterns and trends in graphs and tables</li> </ul>

<ul> <li>I can use a range of scientific keywords in an answer</li> </ul>
I can perform basic calculations
<ul> <li>I can draw simple conclusions from qualitative or quantitative data</li> </ul>
<ul> <li>I can make basic comments relating to experimental methods</li> </ul>
<ul> <li>I can plan an experiment and state the control variables</li> </ul>
<ul> <li>I can provide an explanation for a known situation</li> </ul>
<ul> <li>I can draw simple conclusions from qualitative or quantitative data</li> </ul>
<ul> <li>I can make basic comments relating to experimental methods</li> </ul>
<ul> <li>I can label diagrams, tables and graphs with taught information</li> </ul>
<ul> <li>I can make basic comments relating to experimental methods</li> </ul>
I can provide a definition for a keyword
<ul> <li>I can perform simple calculations such as the mean, median and mode</li> </ul>
<ul> <li>I can use keywords to provide a more detailed explanation</li> </ul>
<ul> <li>I can perform simple calculations such as the mean, median and mode</li> </ul>
<ul> <li>I can use keywords appropriately to provide a simple definition</li> </ul>
<ul> <li>I can recall keywords and give some definitions of keywords</li> </ul>
<ul> <li>I can describe a practical procedure for a specified purpose</li> </ul>
<ul> <li>I can identify keywords and select correct keywords from a list</li> </ul>
<ul> <li>I can make and record observations using a range of apparatus and methods</li> </ul>
I can give a reason for my answer
I can identify an anomalous result
