CEIIS
Founders Schoo DUBAI

| Term | Week | Focus | Summary | Learning Outcomes | Learning skills |
| :---: | :---: | :---: | :---: | :---: | :---: |
|  | 1 | Sequences, Equations and Graphs | Simplifying and forming expressions | Develop how to write expressions using correct algebraic notation. Understand how to add, subtract, multiply and divide expressions. | - Automaticity <br> - Meta-cognition <br> - Resilience |
|  | 2 | Sequences, Equations and Graphs | Substitution | Replacing letters in equations with numerical values to find solutions. | - Critical and logical thinking <br> - Precision <br> - Intellectual playfulness |
|  | 3 | Sequences, Equations and Graphs | Solving linear equations | Solving one/two-step equations using a range of techniques such as bar models, function machines, and balancing scales. | - Speed and accuracy <br> - Automaticity <br> - Flexible thinking |
|  | 4 | Sequences, Equations and Graphs | Plotting co-ordinates in all 4 quadrants | Plotting co-ordinates on graphs with negative numbers. | - Originality <br> - Fluent thinking <br> - Generalisation |
|  | 5 | Sequences, Equations and Graphs | Plotting straight line graphs | Plotting vertical and horizontal lines. Linking knowledge of substitution to complete tables of value and using these to plot co-ordinates. Finding the midpoint of a line. | - Strategy planning <br> - Connection finding <br> - Self-regulation |
|  | 6 | Sequences, Equations and Graphs | Sequences | - Pattern spotting <br> - Continuing a sequence and finding the term-toterm rule <br> - Finding missing terms within a sequence <br> - Finding the nth term of a linear sequence <br> - Different types of sequences (fibonacci) <br> Determine whether a number is in a sequence by solving the nth term - justifying that if ' $n$ ' is a whole number, this is the term etc. | - Critical and logical thinking <br> - Precision <br> - Intellectual playfulness |

Subject: Mathematics

|  | 1 | Statistics | Averages | Finding the mean, mode, median and range . | - Problem solving <br> - Fluent thinking <br> - Generalisation |
| :---: | :---: | :---: | :---: | :---: | :---: |
|  | 2 | Statistics | Stem and Leaf Diagrams | Draw and interpret Stem \& Leaf diagrams. Find averages from stem and leaf diagrams. | - Strategy planning <br> - Connection finding <br> - Self regulation |
|  | 3 | Statistics | Scatter Graphs | Draw and interpret scatter graphs. | - Big picture thinking <br> - Hard working <br> - Self regulation |
|  | 4 | Probability | List outcomes for 1 or 2 events | To be able to list outcomes for 1 or 2 events. | - Problem solving <br> - Strategy planning <br> - Meta-cognition |
|  | 5 | Probability | Probabilities add up to 1 | To understand that the probabilities of all outcomes add to 1. (link to adding fractions, decimals and percentage). | - Abstraction <br> - Problem solving <br> - Generalisation |
